

ActiveMap: Digital Control & Tamper-Proof Inspections

Transforming field audits for 100%
business transparency.

A New Standard for Field Operations

An FSM system replacing paper acts with legally significant digital reports.

From blind spots, manual data entry, and the routine of unverifiable paper acts...

...to total quality monitoring, verifiable data, and zero staff bloat.

Ideal For:

State
Supervision

Construction
Control

Eco-Audits

Corporate
Compliance

Utilities &

Core Technologies for Absolute Objectivity

Interactive Checklists
Strict adherence to industry standards (GOST, OTOS) with mandatory, step-by-step enforcement. No skipped steps.

Automated Reporting
Instant generation of legally sound PDF/Excel reports directly on-site.

Tamper-Proof Photo Evidence

Photos locked to exact GPS/GLONASS coordinates and timestamps. Eliminates the possibility of fake inspections.

True Off-line Mode

100% functionality—including media capture and digital signatures—without an internet connection.

Proven Operational Efficiency

50%

Reduction in communication time and increased responsiveness.

25%

Boost in customer loyalty and growth in new orders.

20%

Improvement in field team discipline and accountability.

15%

Optimization of task-based expense tracking.

Summary: Total Control in Your Hands

- ✓ Complete elimination of the human factor and manual manipulation.
- ✓ Deep analytics of systemic violations for preventive management.
- ✓ Real-time transparency for all stakeholders in the process.

Implement digital control today.
